Kolokuma/Opokuma LGA – PHC Facility Visit Presentation

Presented

by

Akpata Joseph (PFMO)

Number of PHCs

- There are eleven (11) Bacic Health Care Provision Funds (BHCPF) facilities in Kolokuma Opokuma LGA:

1. ODI North phc
2. Odi central phc
3. Odi South Phc
4. Staff Clinic Kaiama
5. Kiama Phc

Number of PHCs Cont.

6. Sampou Phc
7. Sabagriea phc
8. Okoloba PHC
9. Akaranbiri phc (Opokuma South)
10. Ofonibiri phc (Opokuma North)
11. Igbedi phc

Roles of PFMO

- Data Collection for reporting & decision-making
- Financial Oversight & BHCPF transparency
- Operational Monitoring to improve PHC performance
- Regular bi-monthly PHC facility visits
- Use of digital tools (tablets) for data transmission
- Orientation & refresher sessions for PHC staff
- Quality checks and gap identification
- Enhancing PHC capacity & performance tracking

Total Number of visits in KOLGA phcs

- since the inception of this program , a total of 47 facility visits have been carried out by the PFMO for data collection, supportive suppervision , on the spot check and mentorship .

Key Findings from Facility Visits

- patronage of ANC mothers and general services have also increased across the facilities
- Poor documentation of data across facilities due to understaffing and negligence
- Duplication of business plan for all quarters , a reocuurring issue
- No nurses/midwives, Doctors ,medical records officers, lab scientist in most facilities
- The Issue of 50% of BHCPF utilization for purchase of drugs together with NHIA funds has been an issue
- OICs lack of understanding to Business plan development
- expenditures are in line with busniess plan development

Key Findings from Facility Visits cont.

- late disbursement of DFF to facilities
- late approval of business plans for each quarter
- late disbursement of NHIA funds for purchase of essential drugs .
- non challant behaviour as regards certain staff

Basic Achievements

- Improved Data Collection & Reporting:
- Enhanced Financial Transparency:
- Regular Facility Monitoring:
- provided mentorship and support for Health Workers on the need for proper documentations,business plan development etc
- Strengthened Accountability Culture
- Strong coordination with Ward Focal Persons, OICs, and M&E teams has improved overall PHC system performance.

Challenges Identified

- Late disbursement of Direct Facility Funding (DFF) as well as NHIA
- Poor or incomplete facility documentation systems
- Understaffing for facilities

Recommendations

- Strengthen routine staff training and refresher sessions
- Enforce complete and accurate documentation practices
- Improve monitoring and compliance follow-up mechanisms
- Address issue of 50% DFF utilisation for drugs as well as late disbursement
- government should see to permaneting most adhoc staff to strenthened the phc operations

Way Forward

- Implement targeted capacity-building for PHC staff and OICs.
- Continuous tracking of performance indicators by PFMOs
- Strengthen collaboration between PFMO and facility OICs
- Increase transparency and accountability on BHCPF funds
- Regular stakeholders meetings to address facility service gap will enhanced optimal services outcomes .
